

Deploy In Kubernetes cluster

Team ID: PNT2022TMID13090

The screenshot displays the IBM Cloud Kubernetes dashboard. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and user account information (LAKSMIRAAM A's Acco...). Below the navigation bar, a 'Navigation Menu' on the left lists 'Overview', 'Worker nodes', 'Worker pools', and 'DevOps' (marked as 'New'). The main content area shows a cluster overview with a warning banner: 'Expires in 30 days: Be sure to back up your data, your cluster will be deleted in 30 days. To access the full capabilities of the service, try out a standard cluster.' Below this, four status cards are displayed: 'Node status' (1 of 1, Normal), 'Add-on status' (0 of 0, Normal), 'Master status' (Normal), and 'Ingress status' (Healthy). A 'Details' section follows, showing cluster ID (cdv1441f0p7fc0vk2f9g), version (1.24.8_1544), infrastructure (Classic), zones (Milan 01), creation time (11/24/2022, 4:44 PM), and resource group (Default). An 'Image security enforcement' button is also visible. The bottom section of the dashboard includes 'Node health' (1 total nodes, 100% Normal), 'Networking' (Public and Private endpoints), 'Integrations' (Logging, Monitoring, and Key management service), and 'Add-ons'.
